Citizen Corps of Delaware County (CCDC) Orientation

Thursday
November 12, 2020
6:30 pm – 9:00 pm

Location: Microsoft TEAMS: You will receive an invitation to join the video conference after you register.

The County of Delaware is recruiting residents to join an exciting national initiative geared toward encouraging individuals to volunteer to assist during disasters, mass care, and public health events. The Citizen Corps is a branch of Freedom Corps and offers both medical professionals and non-medically qualified volunteers the opportunity to receive FREE training and to be part of a team to support a broad range of emergency/disaster responses to help our fellow citizens in the county.

Volunteers possess a diverse range of skills, but the willingness to volunteer is what really counts!

Please join us to learn more about the Citizen Corps of Delaware County!

Citizen Corps volunteers are part of a larger system of preparedness and response. Volunteers attend important trainings on disaster mental health, emergency and disaster response, public health preparedness, and more. Delco volunteers are part of the county emergency operation plan (EOP) and participate in important exercises that test our county and regional emergency response.

To register or for more information go to www.delcocitizencorps.com or this link:
